

API 6A Gate Valve 5000 PSI

Category: Industrial Valves · Availability: On Request · SKU: RND-VLV-6A-GV-5000

Issued: 31 Oct 2026

OVERVIEW

Gate valves built and sourced to API 6A for wellhead, flowline and plant isolation duty at high working pressures. Forged A105 and F22 bodies with hard-faced gates and seats stand up to abrasive, high-pressure service where a leaking isolation valve means a costly shutdown. Available with flanged, threaded or union end connections and rising-stem handwheel operation, with full material traceability on every unit. Share your bore size, pressure rating and end connection and we will confirm the best price and lead time for your requirement.

TECHNICAL SPECIFICATIONS

Standards	API 6A / API 6D options
Pressure Rating	2000 PSI / 3000 PSI / 5000 PSI / 10000 PSI
Connection	Flanged / threaded / RTJ options
Availability	In Stock / On Order

HOW TO ORDER

Send your RFQ through rigndig.com/request-quote, by email to admin@rigndig.com or on WhatsApp +92 333 2594493. We confirm the best price, availability and lead time — sourcing begins only after you approve the quoted price.
