API 6BX Ring Type Joint Flange

Category: API Standard Flanges · Availability: Custom Manufacturing · SKU: RND-FLG-6BX-RTJ
Issued: 31 Oct 2026

OVERVIEW

Ring type joint flanges sourced to API 6BX for pressure systems that cannot rely on soft gaskets. The precision-machined groove and metal BX ring form a pressure-energised seal that holds under vibration, thermal cycling and high differential pressure. Supplied in A105 and LF2 grades with matching ring gaskets available on the same order, and custom machining for non-standard bores at our own workshop. Tell us your size and pressure class and we will source the complete, certified flange set for you.

TECHNICAL SPECIFICATIONS

Standards	API 6BX, ASME options
Connection	Ring Type Joint
Availability	Custom Manufacturing

HOW TO ORDER

Send your RFQ through rigndig.com/request-quote, by email to admin@rigndig.com or on WhatsApp +92 333 2594493. We confirm the best price, availability and lead time — sourcing begins only after you approve the quoted price.
