# Mud Pump Liner Bi-Metal

Category: Mud Pump & Drilling Spares · Availability: On Request · SKU: RND-MP-LINER-BI
Issued: 31 Oct 2026

## OVERVIEW

Bi-metal liners for triplex mud pumps: a tough outer shell bonded to a high-chrome inner sleeve that resists abrasive drilling mud far longer than a plain steel liner. The right liner protects your pistons, fluid end and drilling programme from premature washouts and unplanned downtime. We source liners for all common pump models — BOMCO F-series, PZ-series and other major makes — in every standard bore size, with matching pistons and rubber kits available on the same RFQ. Send your pump model and bore size for a firm quote.

## TECHNICAL SPECIFICATIONS

| | |
|---|---|
| **Type** | Bi-metal liner |
| **Compatibility** | Common mud pump models on request |
| **Availability** | On Order / Custom Sourcing |

## HOW TO ORDER

Send your RFQ through rigndig.com/request-quote, by email to admin@rigndig.com or on WhatsApp +92 333 2594493. We confirm the best price, availability and lead time — sourcing begins only after you approve the quoted price.
